

AOP Health is the European pioneer for integrated therapies for rare diseases and in critical care. To enhance our team in Vienna we are looking for a:

Program Manager (f/m/d)

1190 Vienna | Full-time employee | Start: as of now |

As member of our global Program Management Office, you will be engaged in AOPs most important pipeline products from early-stage through commercialization. The position includes a dual role as Program - and Project Manager.

What Your Day To Day Will Look Like

As a Program manager you oversee all projects and activities related to a program, including status, progress, risks, issues, and new opportunities. You will manage one or more projects within a program.

- Manage all activities within the program, prepare and execute program meetings, and ensure program documentation.
- Provide critical insights and drive Business Case development and opportunity evaluations, considering different scenarios with detailed financial data, cost, and benefit projections.
- Collaborate with BD to evaluate new opportunities, conduct feasibility assessments and due diligences and contribute to decision-making.
- Support the development of marketing & commercialization strategies.
- Identify cross-program challenges, contribute to PMO best practices, and support organizational initiatives.
- Build strong relationships with internal and external partners, oversee key contracts, and ensure alignment with strategic objectives.
- Leverage oversight knowledge to support decision-making at the program, project, and strategic levels.
- Apply AOP Health project management guidelines, presenting regular updates, stage gates, and recommendations to senior management.
- Keep an eye on workforce planning and budget with an entrepreneurial mindset.
