## Digital Transformation Project Manager (f/m/d)

1190 Vienna | Full-time employee | Start: as of now |

***As a Digital Transformation Project Manager, you will serve as a strategic partner to the business and a hands-on leader in project execution. You'll engage stakeholders across departments to shape digital strategies, evaluate new opportunities, and bring them to life through effective planning and execution.***

***This role combines strategic advisory - fostering innovation and translating business goals into digital initiatives - and project management - leading cross-functional teams to deliver successful IT and digital projects.***

### What Your Day To Day Will Look Like

#### Business Partnering & Strategic Advisory

- Act as a trusted advisor to business units (e.g., R&D, Commercial, Enabling functions,...), identifying digital innovation opportunities.
- Support strategic planning by translating business challenges into technology roadmaps and investment priorities.
- Lead scoping, feasibility analysis, and business case development for new initiatives.
- Facilitate strategy workshops, stakeholder interviews, and innovation sessions.
- Stay current on emerging digital trends and assess their relevance to AOP Health's operations.
- Champion change management and digital adoption across functions.

#### Project Management & Delivery

- Plan and execute IT/digital projects from concept to completion, ensuring

alignment with business goals.

- Develop detailed project plans covering timelines, resources, budgets, risks, and deliverables.
- Set up governance structures, define roles/responsibilities, and manage scope changes.
- Lead cross-functional project teams (technical, business, vendors) and foster collaboration.
- Monitor milestones, budgets, and quality metrics using tools like JIRA, MS Project, or Trello.
- Ensure quality assurance, user training, and documentation for seamless handovers.
- Conduct post-project reviews to capture lessons learned and improvement areas.

## Your Qualifications and Experience

- Bachelor's or Master's degree in Healthcare, Life Sciences, Business, Digital Transformation, IT, or a related field
- 5+ years of experience in a similar role, such as Digital Transformation Lead, IT Business Partner, or Technology Consultant, with a proven record of delivering complex and innovative digital solutions
- Intellectual curiosity and a continuous improvement mindset - seeking new approaches and challenging the status quo
- Customer-focused mindset, able to proactively build bridges and communicate complex technical information in a concise and clear manner
- Strong stakeholder engagement, change management and leadership skills, with experience leading cross-functional collaboration.
- Hands-on experience in project scoping, feasibility studies, and budget planning
- Familiarity with project management methodologies (e.g., Agile, Waterfall, Scrum) and governance best practices.
- Excellent analytical, problem-solving, and decision-making skills, with the ability to handle ambiguity and uncertainty in a dynamic environment.
- Experience in pharmaceutical or healthcare industries is an advantage

## Our Offer

- Open corporate culture with the opportunity to bring in your own ideas
