

AOP Health is the European pioneer for integrated therapies for rare diseases and in critical care. To enhance our team in Vienna we are looking for a:

Application Owner – Veeva Platform (f/m/d)

1190 Vienna | Full-time employee | Start: as of now |

*The **Application Owner – Veeva Platform** is responsible for the overall ownership of the Veeva Vault platform at AOP Health.*

This role provides technical direction and governance for the design, deployment, and continuous optimization of Veeva applications in a regulated (GxP) environment.

You collaborate closely with business and IT teams, oversee platform architecture and integrations, manage key vendor relationships, and ensure that the Veeva platform evolves in a controlled, compliant, and sustainable manner aligned with AOP's IT landscape and best practices.

Your tasks

Platform Ownership & Strategy

- End-to-end accountability for the Veeva Vault platform design, architecture, and evolution.
- Define, own, and continuously refine platform-wide design principles, standards, and methodologies.
- Own the Veeva platform roadmap in close alignment with business strategy, regulatory requirements, and enterprise architecture.
- Enable collaboration across the Vaults to define application roadmaps in close alignment with business strategy, regulatory requirements, and enterprise architecture

Architecture, Integration & Standards

- Define and enforce architecture, data, security, and integration standards within the Veeva platform.
- Oversee integrations, connectors, data flows, and interactions with surrounding systems (e.g. ERP, Identity Management, data platforms).

Main Benefits

-  Bonus
-  Homeoffice
-  Employee mobile phone
-  Flexible working hours
-  Laptop
-  Initial and continuing education
-  Canteen
-  Good transport connection
-  Employee events
-  Meal allowance
-  Company doctor
-  Parking spot

- Ensure platform scalability, performance, and compliance in a global, regulated environment.

Governance & Decision Leadership

- Lead platform governance, including design reviews, prioritization of changes, and approval of key technical decisions across the Platform (incl. other Vaults).
- Serve as point of escalation for complex platform, integration, and compliance-related topics.
- Ensure solution alignment with enterprise architecture, IT security policies, and long-term business objectives.

Business & Stakeholder Partnership

- Provide strategic guidance to senior business stakeholders, QA, and IT teams on platform capabilities and solution options.
- Act as a trusted advisor, balancing domain-specific requirements (Quality, Regulatory, R&D, Manufacturing) with overarching platform goals.
- Proactively engage stakeholders to gather requirements, communicate roadmaps, and ensure solutions deliver clear business value.

Leadership & Enablement

- Mentor and guide internal teams, consultants, and configuration specialists on platform methodology, design principles, and best practices.
- Collaborate with solution and application owners leveraging the platform to ensure consistency and technical excellence.
- Direct and inspire delivery partners to provide high-quality implementations, support, and continuous improvement.

Compliance, Validation & Quality

- Ensure compliance with GxP, Annex 11, 21 CFR Part 11, audit, and data integrity requirements.
- Oversee validation (CSV) strategy, execution, and documentation to maintain audit readiness.
- Champion quality, documentation discipline, and operational excellence across the platform.

Continuous Improvement & Innovation

- Drive continuous optimization of the Veeva platform to improve business processes and operational efficiency.
- Stay abreast of Veeva roadmap developments, regulatory changes, and technological advancements.
- Promote a culture of innovation while maintaining compliance and stability.

Your profile

Experience

- 5+ years in application delivery, platform ownership, or IT solution architecture in a GxP-regulated, international environment.
- 3+ years as R&D Veeva Vault Architect or 5+ years as Functional/Configuration Specialist across multiple Vault domains.
- Strong background in pharma/biotech/life sciences.

Platform & Domain Expertise

- Deep functional knowledge in at least one Vault domain (Quality, Regulatory, Clinical, Safety).
- Solid understanding of platform architecture, data/metadata models, workflows and lifecycles, permissions/security, integrations, and data
